Languages: English, Hindi, Kannada

SUMMARY

An accomplished BCA graduate (2025) with internship experience in MERN stack development. Skilled in full-stack application design, database management, and agile collaboration. Certified in modern web technologies with a proven academic record, eager to contribute innovative digital solutions and drive organizational growth.

INTERNSHIP

Apponix Academy – Internship

2025

Role: Final Year Intern (Full-Stack Developer)

- Contributed to the design and implementation of “Farmers to Corporate” project leveraging MERN stack (MongoDB, Express.js, React.js, Node.js).
- Assisted in building scalable front-end interfaces and integrating secure backend APIs.
- Partnered with cross-functional team members in requirement gathering and feature planning.
- Participated in UI/UX design discussions to ensure intuitive user experiences.
- Gained hands-on experience in Agile methodologies, including sprint planning and iterative development.
- Utilized Git for version control and team collaboration.

Farmers to Corporate (Academic Project)

- Built a full-stack web application using MySQL, React.js, Node.js, and Express.js.
- Developed responsive front-end interfaces to enhance user experience across devices.
- Designed and optimized database schemas to support efficient data handling.
- Implemented secure backend APIs for seamless data exchange and authentication.
- Created a digital bridge between farmers and corporate investors, eliminating middlemen.
- Ensured transparency, scalability, and reliability in the platform’s architecture.

EDUCATION

Bachelor of Computer Applications (BCA) – Kud University / IBMR Degree College

2022 – 2025 | CGPA: 8.3

12th – JG College of Commerce (Karnataka State Board)

2022 | Percentage: 92%

10th – Karnataka State Board

2020 | Percentage: 84%

KEY SKILLS

- Full-Stack Web Development (MERN & SQL)
- UI/UX Design & Responsive Web Applications
- Database Design & Optimization
- API Development & Integration
- Agile Methodologies & Team Collaboration
- Problem-Solving & Debugging
- Application Testing & Deployment
- Java & Object-Oriented Programming (OOP)
- Front-End Frameworks & Modern JavaScript Libraries
- Cloud & Hosting Familiarity (Heroku, Netlify, basic AWS)
- Strong Analytical & Logical Reasoning Skills
